## Impressions of Canadians on US Election and presidential candidates

National survey released November 2016
Project 2016-923

# Canadians believe Clinton most qualified to be President but Trump represents change 

A comfortable majority of Canadians believe that Hillary Clinton is the most qualified to be President of the United States and would be the best choice in terms of the relationship between Canada and the United States. Most say Trump would be the most likely to change things in Washington and there are mixed opinions on who is most likely to tell the truth. A majority of Canadians say it is likely or somewhat likely that the type of political fighting in the United States could someday also take place in Canada.

- Six out of ten Canadians say it is likely or somewhat likely that the type of political fighting in the United States could someday also take place in Canada - Six out ten Canadians say it is likely (24\%) or somewhat likely (36\%) that the type of political fighting in the United States that includes very negative personal attacks and lies could someday also take place in Canada, while four out of ten Canadians say this is somewhat unlikely ( $25 \%$ ) or unlikely (14\%). One per cent are unsure.
- Nearly seven out of ten Canadians say Hillary Clinton is the most qualified to be President of the United States -Sixty-eight per cent of Canadians say Hillary Clinton is the most qualified to be President of the United States, while $24 \%$ say neither Clinton or Trump is the most qualified and six per cent say Trump. Two per cent are unsure.
- Nearly one in two Canadians say Donald Trump is the most likely to change things in Washington - Forty-seven per cent of Canadians say Trump is the most likely to change things in Washington, while $29 \%$ say neither Clinton nor Trump and $17 \%$ say Clinton. Seven per cent are unsure.
- Canadians think Clinton is more likely than Trump to tell truth - Asked who is more likely to tell the truth, just over four out of ten Canadians say Hillary Clinton (43\%), while just over four out of ten Canadians say neither Clinton nor Trump ( $42 \%$ ). Ten per cent say Trump is the most likely to tell the truth. Six per cent are unsure.
- Seven out of ten Canadians say Hillary Clinton would be the best choice in terms of the relationship between Canada and the United States - Seventy per cent of Canadians say Clinton would be the best choice in terms of the relationship between Canada and the United States, while $17 \%$ say neither Clinton nor Trump and seven per cent say Trump. Six per cent are unsure.

Nanos conducted an RDD dual frame (land-and cell-lines) hybrid telephone and online random survey of 1,000 Canadians, 18 years of age or older, between October $27^{\text {th }}$ and $30^{\text {th }}, 2016$ as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The margin of error for a random survey of 1,000 Canadians is $\pm 3.1$ percentage points, 19 times out of 20 .

This study was commissioned by CTV News.

QUESTION - Would you say that [ROTATE] Donald Trump or Hillary Clinton [RANDOMIZE]
Would be the best choice in terms of the relationship between Canada and the United States

## Methodology

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,000 Canadians, 18 years of age or older, between October $27^{\text {th }}$ and $30^{\text {th }}, 2016$ as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for a random survey of 1,000 Canadians is $\pm 3.1$ percentage points, 19 times out of 20.

The data presented in this research is part of a joint project by CTV News and Nanos Research.

Note: Charts may not add up to 100 due to rounding.

## Technical Note

| Element | Description | Element | Description |
| :---: | :---: | :---: | :---: |
| Organization who commissioned the research | CTV News | Weighting of Data | The results were weighted by age and gender using the latest Census information (2014) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure |
| Final Sample Size Margin of Error | 1,000 Randomly selected individuals. $\pm 3.1$ percentage points, 19 times out of 20 . | Screening | Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data. |
| Mode of Survey | RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey | Excluded Demographics | Individuals younger than 18 years old; individuals without land or cell line could not participate. |
| Sampling Method Base | The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada. | Stratification | By age and gender using the latest Census information (2014) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample. |
| Demographics (Captured) | Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography. | Estimated Response Rate | Fourteen percent, consistent with industry norms. |
| Demographics (Other) | Age, gender, education, income | Question Order | Question order in the preceding report reflects the order in which they appeared in the original questionnaire. |
| Fieldwork/Validation | Live interviews with live supervision to validate work as per the MRIA Code of Conduct | Question Content | This was module two of an omnibus survey. The previous module included a question about the top unprompted issue of national concern. |
| Number of Calls/ | Maximum of five call backs. | Question Wording | The questions in the preceding report are written exactly as they were asked to individuals. |
| Time of Calls | Individuals were called between 12-5:30 pm and 6:309:30pm local time for the respondent. | Survey Company | Nanos Research |
| Field Dates | October 27 ${ }^{\text {th }}$ to $30^{\text {th }}, 2016$. | Contact | Contact Nanos Research for more information or with any concerns or questions. <br> http://www.nanosresearch.com |
| Language of Survey | The survey was conducted in both English and French. |  | Telephone:(613) 234-4666 ext. Email: info@nanosresearch.com. |

## About Nanos

View our brochure

Nanos is one of North America's most trusted research and strategy organizations. Our team of professionals is regularly called upon by senior executives to deliver superior intelligence and market advantage whether it be helping to chart a path forward, managing a reputation or brand risk or understanding the trends that drive success. Services range from traditional telephone surveys, through to elite in-depth interviews, online research and focus groups. Nanos clients range from Fortune 500 companies through to leading advocacy groups interested in understanding and shaping the public landscape. Whether it is understanding your brand or reputation, customer needs and satisfaction, engaging employees or testing new ads or products, Nanos provides insight you can trust.
