Key Findings

1

END HOMELESSNESS

Nearly seven in ten Canadians say it is urgent to end homelessness in Canada and invest in affordable housing in Canada (mean of 7.3). NDP voters (mean of 8.8) and women (mean of 8.0) are more likely to say this is urgent compared to men (mean of 6.7) and Conservative supporters (mean of 5.8).

2

NEW AFFORDABLE HOUSING

Over eight in ten Canadians say they support (45%) or somewhat support(39%) investing in building new affordable housing. NDP supporters (71% support, 22% somewhat support) and Liberal Supporters (55% support, 37% somewhat support) report a higher intensity of support compared to Conservative supporters (47% support, 36% somewhat support).

3

HOUSING COSTS

Consistent with the previous wave, under two in ten Canadians report being worried (five percent) or somewhat worried (ten percent) about paying their housing costs next month. Bloc Quebecois voters (69% not worried, 23% somewhat not worried) were most likely to say they are not worried compared to Conservative voters (68% not worried, 9% somewhat not worried)

4

PARTY SUPORT

Just under eight in ten Canadians say they would be more supportive or somewhat more supportive of a political party if they proposed concrete action to end homelessness and build safe, affordable, housing in Canada. NDP voters (60% more supportive, 30% somewhat more supportive) were most likely to say so compared to conservative voters (16% more supportive, 39% somewhat more supportive)

Homelessness and housing in Canada

15% of Canadians are **worried** or **somewhat worried** about paying their housing costs next month (compared to 16% in 2020).

— Canadians who rent are over **six times** more likely to be **worried** about paying their housing costs next month (13%) than Canadians who own their own home (2% worried).

70% of Canadians believe **it is** URGENT to work to **end homelessness** and **invest in affordable housing** in Canada (score of 7-10 out of 10)

— **91%** of Canadians who usually vote **NDP** and **77%** who usually vote **Liberal** believe it is URGENT to work to **end homelessness** and **invest in affordable housing**, while **47%** of Canadians who usually vote **Conservative** believe the same.

Taking action to end homelessness in Canada

84% of Canadians **support** or **somewhat support** investing in building new affordable housing to stimulate the economic recovery and **help end homelessness** and **ensure all households have a safe and affordable home** in Canada

— **94%** of Canadians who usually vote **Liberal** or **NDP**, and **69%** of Canadians who usually vote **Conservative** **support** or **somewhat support** this.

78% of Canadians say they would be **more supportive** or **somewhat more supportive** of a political party if they proposed concrete action to **end homelessness** and **build safe, affordable, housing** in Canada.
— **91%** Canadians who usually vote **NDP** and **90%** who usually vote **Liberal** are more likely to support or somewhat support a political party that proposed this compared to **55%** of Canadians who usually vote **Conservative**.

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,002 Canadians, 18 years of age or older, between , July 30th and August 2nd , 2021 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals were randomly called using random digit dialing with a maximum of five call backs.

The margin of error for a random survey of 1,002 Canadians is ±3.1 percentage points, 19 times out of 20.

The research was commissioned by Canadian Alliance to End Homelessness and was conducted by Nanos Research.

Note: Charts may not add up to 100 due to rounding.

METHODOLOGY

Element	Description
Research sponsor	Canadian Alliance to End Homelessness
Population and Final Sample Size	1,002 Randomly selected individuals.
Source of Sample	Nanos Panel
Type of Sample	Probability
Margin of Error	±3.1 percentage points, 19 times out of 20.
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada.
Demographics (Captured)	Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography.
Fieldwork/Validation	Individuals were recruited using live interviews with live supervision to validate work, the research questions were administered online
Number of Calls	Maximum of five call backs to those recruited.
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.
Field Dates	July 30th to August 2nd , 2021.
Language of Survey	The survey was conducted in both English and French.
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. https://canadianresearchinsightscouncil.ca/standards/

Element	Description
Weighting of Data	The results were weighted by age and gender using the latest Census information (2016) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure
Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Stratification	By age and gender using the latest Census information (2016) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample.
Estimated Response Rate	Fourteen percent, consistent with industry norms.
Question Order	Question order in the preceding report reflects the order in which they appeared in the original questionnaire.
Question Content	Topics on the omnibus ahead of the survey content included: views on political issues, views on economic issues, the federal election, the Olympics, climate change and the COVID-19 pandemic.
Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
Research/Data Collection Supplier	Nanos Research
Contact	Contact Nanos Research for more information or with any concerns or questions. http://www.nanos.co Telephone:(613) 234-4666 ext. 237 Email: info@nanosresearch.com.

TECHNICAL NOTE

NANOS RESEARCH

As one of North America's premier market and public opinion research firms, we put strategic intelligence into the hands of decision makers. The majority of our work is for private sector and public facing organizations and ranges from market studies, managing reputation through to leveraging data intelligence. Nanos Research offers a vertically integrated full service quantitative and qualitative research practice to attain the highest standards and the greatest control over the research process. www.nanos.co

nanos dimap analytika
NANOS dïmap

This international joint venture between dimap and Nanos brings together top research and data experts from North American and Europe to deliver exceptional data intelligence to clients. The team offers data intelligence services ranging from demographic and sentiment microtargeting; consumer sentiment identification and decision conversion; and, data analytics and profiling for consumer persuasion. www.nanosdimap.com
