## About the Nanos-Bloomberg tracking

**Bloomberg Nanos Canadian Confidence Index (BNCCI) is a weekly measurement of the economic mood of Canadians.**

The BNCCI is produced by the Nanos Research Corporation, headquartered in Canada, which operates in Canada and the United States. The data is based on random telephone interviews with 1,000 Canadian consumers (land- and cell-lines), using a four week rolling average of 250 respondents each week, 18 years of age and over.

The random sample of 1,000 respondents is weighted using the latest census information for Canada. The interviews are compiled into a four week rolling average of 1,000 interviews where each week, the oldest group of 250 interviews is dropped and a new group of 250 interviews is added.

The views of 1,000 respondents are compiled into a diffusion index from 0 to 100. A score of 50 on the diffusion index indicates that positive and negative views are a wash while scores above 50 suggest net positive views, while those below 50 suggest net negative views in terms of the economic mood of Canadians.

The questions in the Nanos Economic survey are as follows:

1. Thinking of your personal finances, are you better off, worse off or has there been no change over the past year?
2. In the next six months, do you think the Canadian economy will become stronger, weaker or will there be no change?
3. Would you describe your job, at this time, as secure, somewhat secure, somewhat not secure or not at all secure?
4. In the next six months, do you believe that the value of real estate in your neighborhood will increase, stay the same or decrease?

## About the Weekly Nanos Tracking

**The Nanos Party Power Index is a weekly composite measurement of federal party brands based on questions about the federal parties and their leadership. The National Issue Tracking data portal shows the unprompted top national issues of concern of Canadians over time.**

The Weekly Nanos Tracking is produced by the Nanos Research Corporation. The data is based on a dual frame (land + cell-lines) random telephone interviews using live agents of 1,000 Canadians using a four week rolling average of 250 respondents each week, 18 years of age and over.

The random sample of 1,000 respondents is weighted by age and gender using the latest census information for Canada. The interviews are compiled into a four week rolling average of 1,000 interviews, where each week the oldest group of 250 interviews is dropped and a new group of 250 interviews is added.

## The questions in the Nanos Political and Issue tracking survey are as follows:

1. What is your most important NATIONAL issue of concern?

For each of the following federal political parties, please tell me if you would consider or not consider voting for it. [RANDOMIZE ORDER]

- 2. Liberal Party
- 3. Conservative Party
- 4. NDP
- 5. Bloc Québécois
- 6. People's Party of Canada
- 7. Green Party

8. For those parties you would consider voting for **federally**, could you please rank your top two current local preferences? [Unprompted] [ 1<sup>ST</sup> CHOICE, 2<sup>ND</sup> CHOICE RANK]

9. Are you currently leaning towards any particular **FEDERAL** party? If you are, which party would that be? [Unprompted]

As you may know, at the federal level, [ROTATE] Justin Trudeau is the leader of Liberal Party, Andrew Scheer is the leader of the Conservative Party, Mario Beaulieu is the leader of the Bloc Québécois, Jagmeet Singh is the leader of the NDP, Elizabeth May is leader of the Green Party, and Maxime Bernier is the leader of the People's Party of Canada.

10. Of the current federal political party leaders, could you please rank your top two current preferences for Prime Minister? [ 1<sup>ST</sup> CHOICE, 2<sup>ND</sup> CHOICE RANK]

## About the Nanos CANAM surveys

**The CAN-AM Tracking survey is an annual survey among Canadians and Americans that examines perceptions of Canada-US relations tracked over time.**

The Nanos-UB North American Monitor is conducted by the Nanos Research Corporation. Parallel questions on bi-national issues are tracked by means of a hybrid telephone and online random sample of Canadians in the month of May, and a random representative online sample of Americans conducted in the month of June.

A Nanos RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,000 Canadians as part of an omnibus survey. Participants are randomly recruited by telephone using live agents and administered a survey online. The sample includes both land- and cell-lines across Canada. The results are statistically checked and weighted using the latest Census data. The margin of error for a random survey of 1,000 Canadians is  $\pm 3.1$  percentage points, 19 times out of 20.

A random representative online survey of 1,000 Americans was conducted. Results are statistically checked and weighted using the latest Census data.

## About the AmCham-Nanos US Business Sentiment Tracking

**Track and explore the sentiment of US businesses operating in Canada.**

Nanos and AmCham Canada have created a co-branded index and research project based on a new confidence survey of American businesses operating in Canada. The Index provides sector intelligence and data that supports understanding of business trends.

Tracking is conducted by the Nanos Research Corporation. Questions on the expected change in number of employees, perceptions of the investment environment in Canada, expected changes to the Canadian economy, changes in sales and expected changes in sales are tracked by means of an online survey of U.S. businesses operating in Canada every year.

The questions in AmCham-Nanos US Business Sentiment Tracking are as follows:

1. Over the next six months, do you expect the number of people your firm employs will increase, remain the same or decrease?
2. Would you describe today's environment for your business to invest in Canada as positive, neutral or negative?
3. In the next six months, do you think the Canadian economy will become stronger, weaker or will there be no change?
4. In the past six months, have the sales in Canada for your organization increased, stayed the same or decreased?
5. In the next six months, do you expect sales in Canada for your organization to increase, stay the same or decrease?
6. Thinking of the future of the Canadian economy, do you think it is moving in the right direction or the wrong direction?
