

Canadians more likely to support increasing economic sanctions rather than going to war with Russia over Ukraine.

# Key Findings

### ECONOMIC SANCTIONS

There is strong support among Canadians (63% support, 20% somewhat support) for increasing economic sanctions and actions against Russia even if it resulted in a prolonged series of price increases. Younger Canadians were less likely to support (47%) or somewhat support this (21%).

### GOING TO WAR WITH RUSSIA

While Canadians are more likely to oppose (32%) or somewhat oppose (13%) going to war with Russia over Ukraine rather support (21%) or somewhat support (26%) this, support is stronger when asked about going to war with Russia if it invades another country other than Ukraine (41% support 25% somewhat support).

### AIRLIFTING UKRAINIAN REFUGEES

A majority of Canadians support (58%) or somewhat support (27%) using Canadian tax dollars to airlift Ukrainian refugees to Canada. Just over one in ten oppose (six per cent) or somewhat oppose (eight per cent) this.

# Key Findings

---

## ACCEPTING UKRAINIAN REFUGEES

About four in ten Canadians, each, say that we should accept more Ukrainian refugees (44%) or the same amount (41%) compared to Syrian refugees, while under one in ten (seven per cent) say we should accept fewer.

## ESTABLISHING NO-FLY ZONE

Canadians are split on whether or not they support having NATO establish a no-fly zone over Ukraine, with under one in two who support (22%) or somewhat support (25%) this, and under one in two who oppose (30%) or somewhat oppose (15%) this.

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,000 Canadians, 18 years of age or older, between March 18<sup>th</sup> and 20<sup>th</sup>, 2022 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for this survey is  $\pm 3.1$  percentage points, 19 times out of 20.

This study was commissioned by CTV News and the Globe and Mail and the research was conducted by Nanos Research.

Note: Charts may not add up to 100 due to rounding.

Element	Description	Element	Description
Research sponsor	CTV News and the Globe and Mail	Weighting of Data	The results were weighted by age and gender using the latest Census information (2016) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure
Population and Final Sample Size	1000 Randomly selected individuals.	Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Source of Sample	Nanos Hybrid Probability Panel	Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Type of Sample	Probability	Stratification	By age and gender using the latest Census information (2016) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample.
Margin of Error	±3.1 percentage points, 19 times out of 20.	Estimated Response Rate	14 percent, consistent with industry norms.
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey	Question Order	Question order in the preceding report reflects the order in which they appeared in the original questionnaire.
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada.	Question Content	Content ahead of this on the omnibus included questions on political issues and economic issues.
Demographics (Captured)	Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography.	Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
Fieldwork/Validation	Individuals were recruited using live interviews with live supervision to validate work, the research questions were administered online	Research/Data Collection Supplier	Nanos Research
Number of Calls	Maximum of five call backs to those recruited.	Contact	Contact Nanos Research for more information or with any concerns or questions. <a href="http://www.nanos.co">http://www.nanos.co</a> Telephone:(613) 234-4666 ext. 237 Email: info@nanosresearch.com.
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.		
Field Dates	March 18 <sup>th</sup> to 19 <sup>th</sup> , 2022.		
Language of Survey	The survey was conducted in both English and French.		
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. <a href="https://canadianresearchinsightscouncil.ca/standards/">https://canadianresearchinsightscouncil.ca/standards/</a>
