Key Findings

1

Two thirds of Canadians support the government using the *Emergencies Act*

Two in three Canadians say they support (48%) or somewhat support (18%) the Government of Canada using the *Emergencies Act* in response to the Freedom Convoy Protest. Older Canadians (55 and older)(59% support, 16% somewhat support) are more likely to support or somewhat support compared to Younger Canadians (18 to 34) (36% support, 19% somewhat support).

2

Truckers Protestors left Canadians with the worst impression

When asked who left them with the worst impression thinking of the inquiry into the use of the *Emergencies Act*, Canadians were twice more likely to say the Truckers Protesters in general (46%) compared to the Government of Canada (23%). About one in ten mentioned they had a bad impression of all of them (10%) and the Government of Ontario (8%).
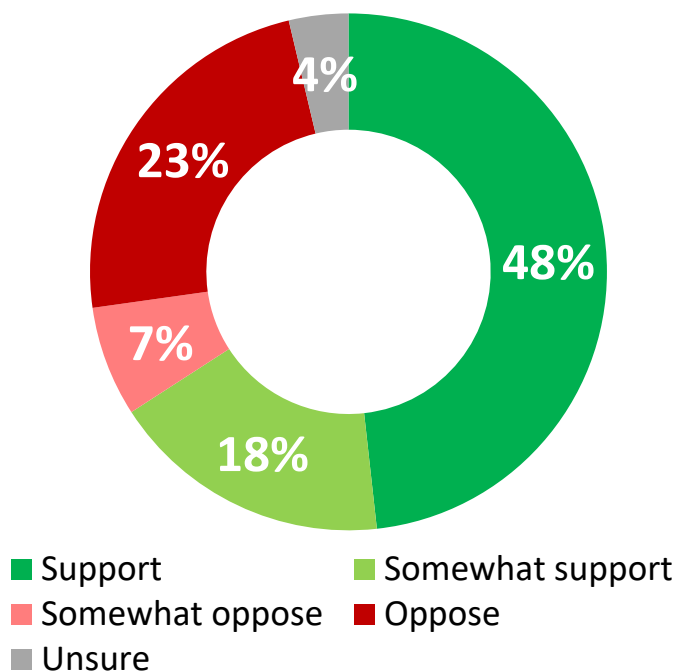

3

The federal Government left Canadians with the best impression

When asked who left them with the best impression thinking of the inquiry into the use of the *Emergencies Act*, Canadians were more likely to say the Government of Canada with four in ten who said so (40%), followed by one in four who were unsure (25%). About one in ten mentioned Truckers Protesters in general (13%) and the Police in general (10%).

Support for use of *Emergencies Act* in response to Freedom Convoy

Our next few questions are about the federal inquiry into the use of the *Emergencies Act* by the Government of Canada in response to the Freedom Convoy Protest. Do you support, somewhat support, somewhat oppose or oppose the Government of Canada using the *Emergencies Act* in response to the Freedom Convoy Protest?

- 🟩 Support

THE GLOBE AND MAIL* ⓝ NANOS

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,025 Canadians, 18 years of age or older, between November 27th and 29th, 2022 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialing with a maximum of five call backs.

The margin of error for this survey is ±3.1 percentage points, 19 times out of 20.

This study was commissioned by the Globe and Mail and the research was conducted by Nanos Research.

Note: Charts may not add up to 100 due to rounding

METHODOLOGY

Element	Description
Research sponsor	The Globe and Mail
Population and Final Sample Size	1025 Randomly selected individuals.
Source of Sample	Nanos Hybrid Panel
Type of Sample	Probability
Margin of Error	±3.1 percentage points, 19 times out of 20.
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada.
Demographics (Captured)	Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography.
Fieldwork/Validation	Individuals were recruited using live interviews with live supervision to validate work, the research questions were administered online
Number of Calls	Maximum of five call backs to those recruited.
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.
Field Dates	November 27th to 29th, 2022.
Language of Survey	The survey was conducted in both English and French.
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. https://canadianresearchinsightscouncil.ca/standards/

Element	Description
Weighting of Data	The results were weighted by age and gender using the latest Census information (2021) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure
Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Stratification	By age and gender using the latest Census information (2021) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample.
Estimated Response Rate	13 percent, consistent with industry norms.
Question Order	Question order in the preceding report reflects the order in which they appeared in the original questionnaire.
Question Content	Topics on the omnibus ahead of the survey content included: views on political issues, views on economic issues and the holidays.
Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
