Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,044 Canadians, 18 years of age or older, between September 2nd and September 4th, 2023 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for this survey is ± 3.1 percentage points, 19 times out of 20.
