Canadians are two and a half times more likely to prefer someone other than Justin Trudeau lead the Liberals in the next election.

National survey released July, 2024 Field: June 28<sup>th</sup> to July 3<sup>rd</sup>, 2024 Submission 2024-2627

Nanos Research was retained by CTV News to conduct research among Canadians to gauge their preferences for the leader of the Liberal Party of Canada, as well as the best ways for the Liberals to increase their chances of winning the next federal election.

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1018 Canadians, 18 years of age or older, between June 28<sup>th</sup> and July 3<sup>rd</sup>, 2024, as part of an omnibus survey.

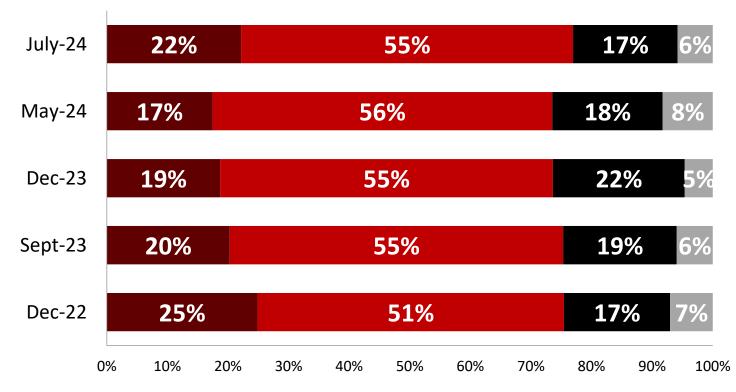

The margin of error for this survey is  $\pm 3.1$  percentage points, 19 times out of 20.

This study was commissioned by CTV News and the research was conducted by Nanos Research.

Canadians continue to be more likely to prefer someone other than Justin Trudeau to lead the Liberals in the next federal election.

TEST IDEAS

Nanos conducted an RDD dual frame (land- and celllines) hybrid telephone and online random survey of 1018 Canadians, 18 years of age or older, between June 28<sup>th</sup> and July 3<sup>rd</sup>, 2024, as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for this survey is  $\pm 3.1$  percentage points, 19 times out of 20.

This study was commissioned by CTV News and the research was conducted by Nanos Research.
