

Canadians give Carney a significant advantage over Poilievre on supporting economic growth.

National survey released April, 2025  
Field: March 29<sup>th</sup> to April 1<sup>st</sup>, 2025  
Submission 2025-2808

This survey gauged the opinions of Canadians on trust in federal party leaders when it comes to supporting economic growth in Canada.

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1,054 Canadians, 18 years of age or older, between March 29<sup>th</sup> and April 1<sup>st</sup>, 2025 as part of an omnibus survey. The margin of error for this survey is  $\pm 3.0$  percentage points, 19 times out of 20.

The statistical tabulations including the unweighted and weighted number of interviews can be accessed [here](#).

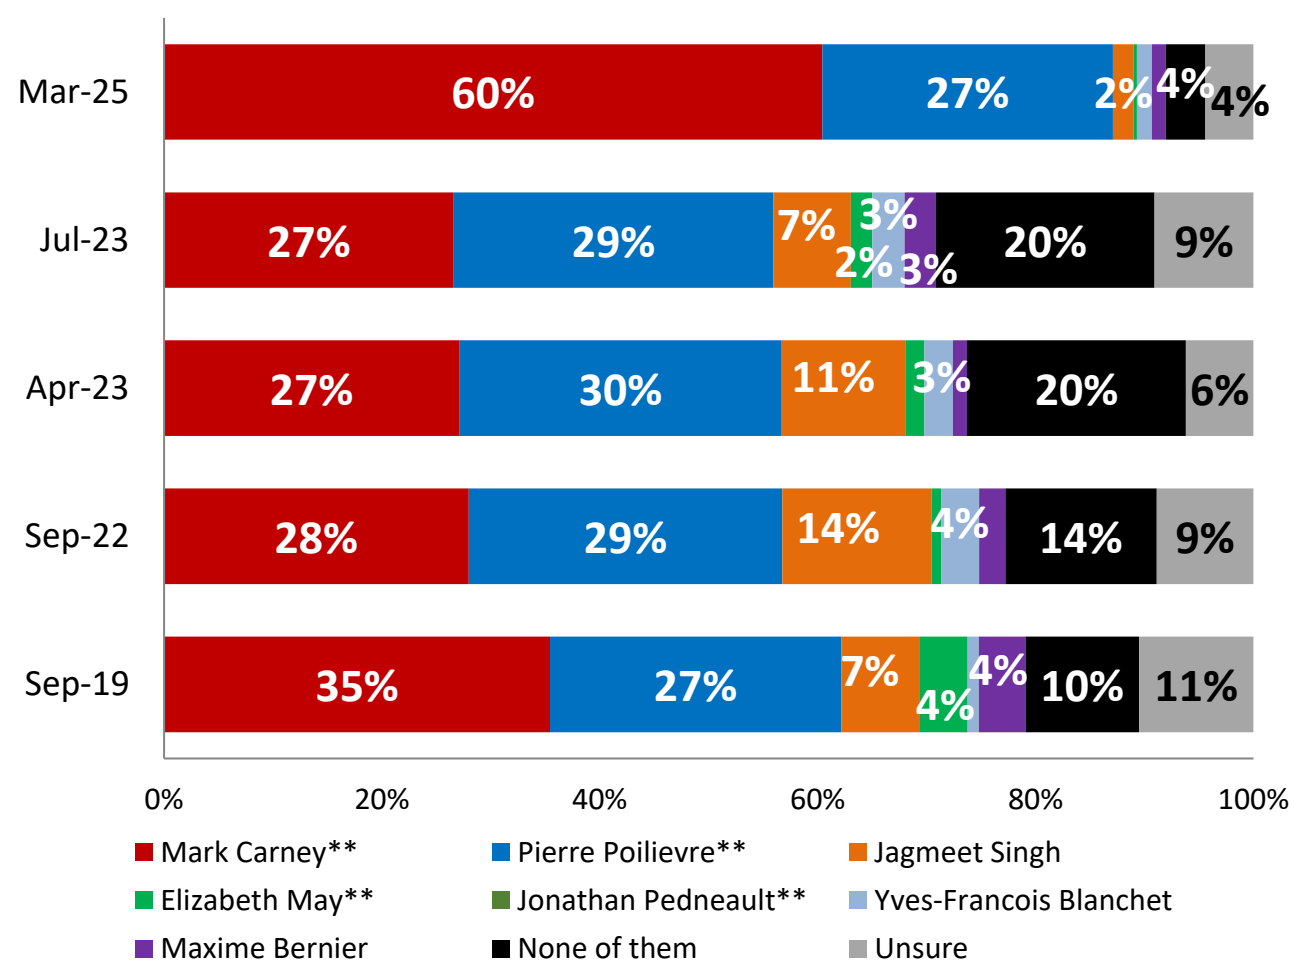

The research was commissioned by CTV News and was conducted by Nanos Research.

“

***Trust in Mark Carney to support economic growth is more than twice that of his Liberal predecessor, Justin Trudeau. Carney also significantly outscores Poilievre on trust, picking up voters who in the past didn't trust anyone or were unsure.***

”

***Nik Nanos, Chief Data Scientist***

# Most trusted party leader to support economic growth

## 3 in 5 Canadians

say Mark Carney is the federal leader they trust most to support economic growth in Canada (60%), while more than one in four trust Pierre Poilievre the most (27%; consistent with previous waves). The proportion who say they do not trust any of them has declined significantly since 2023 (four per cent; down from 20% in 2023 waves).

\*Weighted to the true population proportion.  
 \*Charts may not add up to 100 due to rounding.  
 \*\*Justin Trudeau was leader of the Liberal Party from the start of tracking until the July 2023 wave. Andrew Sheer was leader of the Conservative Party for the September 2019 wave, Erin O’Toole for the September 2022 wave. Elizabeth May was leader of the Greens Party for the September 2019 wave.

Q – Which of the federal party leaders would you trust most to support economic growth in Canada? [RANDOMIZE]

Source: Nanos Research, RDD dual frame hybrid telephone and online random survey, March 29<sup>th</sup> to April 1<sup>st</sup>, 2025, n=1054, accurate 3.0 percentage points plus or minus, 19 times out of 20.

Source: Nanos Research, RDD dual frame hybrid telephone and online random survey, March 29<sup>th</sup> to April 1<sup>st</sup>, 2025, n=1054, accurate 3.0 percentage points plus or minus, 19 times out of 20.

Nanos conducted an RDD dual frame (land- and cell-lines) hybrid telephone and online random survey of 1054 Canadians, 18 years of age or older, between March 29<sup>th</sup> to April 1<sup>st</sup>, 2025 as part of an omnibus survey. Participants were randomly recruited by telephone using live agents and administered a survey online. The sample included both land- and cell-lines across Canada. The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of Canada.

Individuals randomly called using random digit dialling with a maximum of five call backs.

The margin of error for this survey is  $\pm 3.0$  percentage points, 19 times out of 20.

This study was commissioned by CTV News and the research was conducted by Nanos Research.

Note: Charts may not add up to 100 due to rounding.

Element	Description	Element	Description
Research sponsor	CTV News	Weighting of Data	The results were weighted by age and gender using the latest Census information (2021) and the sample is geographically stratified to ensure a distribution across all regions of Canada. See tables for full weighting disclosure
Population and Final Sample Size	1054 Randomly selected individuals.	Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Source of Sample	Nanos Probability Panel	Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Type of Sample	Probability	Stratification	By age and gender using the latest Census information (2021) and the sample is geographically stratified to be representative of Canada. Smaller areas such as Atlantic Canada were marginally oversampled to allow for a minimum regional sample.
Margin of Error	±3.0 percentage points, 19 times out of 20.	Estimated Response Rate	13 percent, consistent with industry norms.
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone and online omnibus survey	Question Order	Question order in the preceding report reflects the order in which they appeared in the original questionnaire.
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across Canada.	Question Content	Topics on the omnibus ahead of the survey content included: views on political issues, views on economic issues.
Demographics (Captured)	Atlantic Canada, Quebec, Ontario, Prairies, British Columbia; Men and Women; 18 years and older. Six digit postal code was used to validate geography.	Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
Fieldwork/Validation	Individuals were recruited using live interviews with live supervision to validate work, the research questions were administered online	Research/Data Collection Supplier	Nanos Research
Number of Calls	Maximum of five call backs to those recruited.	Contact	Contact Nanos Research for more information or with any concerns or questions. <a href="http://www.nanos.co">http://www.nanos.co</a> Telephone:(613) 234-4666 ext. 237 Email: info@nanosresearch.com.
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.	Tabulations	<a href="#">By region, age and gender</a>
Field Dates	March 29 <sup>th</sup> to April 1 <sup>st</sup> , 2025.		
Language of Survey	The survey was conducted in both English and French.		
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. <a href="https://canadianresearchinsightscouncil.ca/standards/">https://canadianresearchinsightscouncil.ca/standards/</a>		

As one of North America’s premier market and public opinion research firms, we put strategic intelligence into the hands of decision makers. The majority of our work is for private sector and public facing organizations and ranges from market studies, managing reputation through to leveraging data intelligence. Nanos Research offers a vertically integrated full service quantitative and qualitative research practice to attain the highest standards and the greatest control over the research process.
