

# 2025 Community Satisfaction Survey.

Survey | Summary | Final  
Conducted by Nanos for the City of St. Albert, October 2025  
Field: September 2 to October 6, 2025  
Submission 2025-2818

The research gauged the opinions and perceptions among the residents of St. Albert across a number of issues including:

**Quality of Life in St. Albert**

- Resident ratings of overall quality of life
- Top factors enhancing or reducing quality of life
- Perceptions of personal safety in the community

**Service Delivery Channels**

- Satisfaction with in-person, online, and phone-based services
- Activities include bill payments, licensing, and registration
- Suggestions for optimizing service experience

**City Services Satisfaction**

- Most and least satisfying City services
- Feedback on service delivery methods
- Ideas for improvement

**Downtown Amenities**

- Frequency of visits for amenities (excluding work or commuting)
- Satisfaction with parks, dining, trails, public art, and gathering spaces

**Communication & Information Sharing**

- Effectiveness of City’s communication about municipal matters
- Current and preferred information channels
- Agreement on variety of communication methods

**Property Taxes & Value Perception**

- Homeownership status
- Perceived value of City services funded by property taxes
- Preferred tax strategies and satisfaction with budget communication

**Strategic Priorities & Council Focus**

- Most important issue facing City Council
- Top three priorities for the new Council term
- Importance ratings of strategic priorities

This report outlines the results for the 2025 Community Satisfaction Survey.

Nanos conducted a survey of 443 residents of St. Albert through an RDD dual frame (land- and cell-lines) random telephone survey of 400 residents and online survey of 43 self-selected residents recruited through social media, in order to capture younger demographics that are typically harder to reach via telephone, 18 years of age or older, between September 2 and October 6, 2025.

The results were statistically checked and weighted by age and gender using the latest Census information and the sample is geographically stratified to be representative of St. Albert. Individuals were randomly called using random digit dialing with a maximum of five call backs.

A margin of error cannot be calculated on a non-probability sample. For comparison purposes, a probability sample of 443 respondents would have a margin of error of  $\pm 4.7$  percentage points, 19 times out of 20.

A similar open-link online survey was available to residents via a link on the City's website and 48 residents participated. This allowed additional residents to participate in the survey, including those who may not have been reached by telephone. The open-link survey results were collected but are not included in this statistical report.

The research was commissioned by City of St. Albert and was conducted by Nanos Research.

\*For comparison purposes, at the direction of the City of St. Albert, the 2019 community satisfaction survey was used as the benchmark in terms of methodology and questions.

Note: Charts may not add up to 100 due to rounding.

The 2019 Community Satisfaction Survey serves as the baseline for comparisons in this 2025 report.

**In 2019, a mixed-method survey of 453 residents was conducted using telephone interviews (n=400) and a web-based survey (n=53) to help reach younger demographics.** Age and gender quotas were applied to reflect St. Albert's population, and fieldwork took place from November 14 to December 11, 2019. A probability sample of this size would carry a margin of error of approximately  $\pm 4.6\%$  percentage points, 19 times out of 20.

***Please Note:*** Due to the opt-in nature of the online component, those results cannot be generalized to the full population.

# KEY FINDINGS

# 1

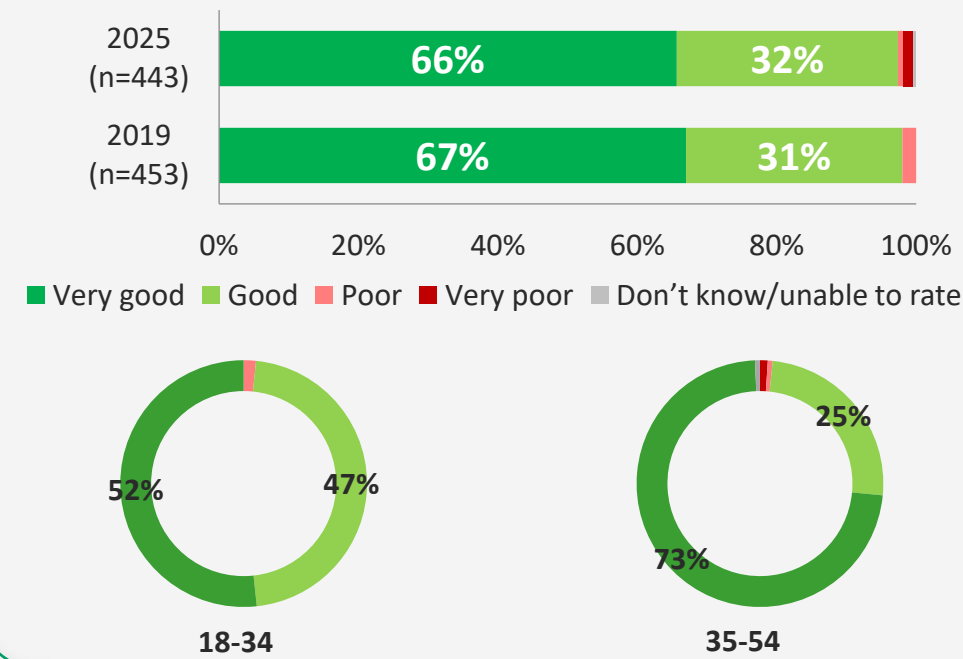

## Quality of life

# QUALITY OF LIFE REMAINS STRONG IN THE CITY OF ST. ALBERT

Similar to the 2019 wave, over nine in ten St. Albert residents rate the overall quality of life in the City as very good (66%) or good (32%), while less than one in ten rate it as poor or very poor (one percent each). Residents aged 35-54 are more likely to rate the overall quality of life in the City as very good (73%) than those aged 18-34 (52%), though 47% of those aged 18-34 rate quality of life in the City as good, compared to 25% for those aged 35-54.

## QUALITY OF LIFE

Q – How do you rate the overall quality of life in the City of St. Albert?

# FACTORS IMPACTING QUALITY OF LIFE

When asked the top factors contributing to a high quality of life in the City, residents mention ‘Park system/green spaces/river/trail system’ (35%), followed by ‘Safe place to live/low crime rate/good policing/police presence’ (25%), and ‘Community atmosphere/friendly people/community spirit/small town feel’ (21%). Meanwhile, over one in four residents mention ‘high taxes’ (28%) and ‘high traffic volume/congestion/poor traffic management/control’ (25%), when prompted about the top factors that reduce the quality of life in St. Albert.

Q – In your opinion, what would you say are the top factors contributing to a high quality of life in St. Albert, if any? (UP TO 3 MENTIONS)[OPEN]

Q – And, what would you say are the top factors that reduce the quality of life in St. Albert, if any? (up to 3 mentions) (UP TO 3 MENTIONS)[OPEN]

\*Responses based on multiple mentions.

# NINE IN TEN RESIDENTS FEEL PERSONALLY VERY SAFE OR SAFE IN THEIR COMMUNITY

Majority of St. Albert residents feel personally very safe (55%) or safe (35%) in their community. When asked their opinion on perceived level of personal safety and security in the community, 17% mention general sense of safety. Additionally, 15% say low crime rate and another 11% mention no personal experience with crime.

Q – Please rate the extent to which you feel personally safe and secure in your community. Please use a scale of 1 to 5, where 1 means not at all safe and 5 means very safe?

■ Not safe at all ■ Not safe ■ Neither unsafe or safe ■ Safe ■ Very safe

Note: Data labels under two percent have been removed for clarity.

Q – Why do you have that opinion? [OPEN]

\*Responses based on multiple mentions.

# 2

**Overall satisfaction with  
City services, facilities,  
programs and  
downtown amenities**

HIGH LEVEL OF SATISFACTION WITH DOWNTOWN AMENITIES

Just over one in three St. Albert residents (35%) report visiting downtown St. Albert for the amenities once a week or more in the past 12 months. About two in five report visiting at least once a month (27% 2-3 times a months; 12% once a month). Moreover, satisfaction with downtown amenities is high with seven in ten residents saying that they are very satisfied (21%) or satisfied (49%), while one in ten residents report being very dissatisfied (three percent) or dissatisfied (eight percent).

Q – In the past 12 months, how often have you visited downtown St. Albert for the amenities? This may include parks, places to eat, hangout spots, public art, and trails. Please exclude simply passing through, living nearby or going downtown for work. Would that be...

Q – Thinking about your experiences in downtown St. Albert, are you very satisfied, satisfied, neither satisfied nor dissatisfied, dissatisfied or very dissatisfied with the amenities available?

- Once a month
- 2 to 3 times a month
- Once a week or more
- Very dissatisfied
- Neither satisfied nor dissatisfied
- Very satisfied
- Dissatisfied
- Satisfied
- Do not know/Unsure

MAJORITY OF ST. ALBERT RESIDENTS SAY THEY ARE SATISFIED TO SOME EXTENT WITH THE PROGRAMS AND SERVICES PROVIDED BY THE CITY

Similar to the 2019 wave, St. Albert residents are more than ten times more likely to say they are very satisfied (23%) or satisfied (52%) with the programs and services provided by the City to residents than say they are very dissatisfied (two percent) or dissatisfied (five percent).

Q – Taking into consideration all city services, facilities and programs, overall, are you very satisfied, satisfied, neither satisfied nor dissatisfied, dissatisfied or very dissatisfied with the programs and services provided by the City to residents?

- Very dissatisfied
- Neither satisfied nor dissatisfied
- Very satisfied
- Dissatisfied
- Satisfied
- Don't know

Note: Data labels under two percent have been removed for clarity.

# 3

## Service expectations and customer experience

## ST. ALBERT SERVICE CHANNELS MEET OR EXCEED NEEDS FOR MAJORITY OF RESIDENTS

St. Albert residents are more likely to say that the City’s methods/channels for conducting services fully meet (32%) or exceed their needs (13%) while just one in ten say they somewhat meet (eight percent) or do not meet their needs (three percent). Of note, one in three residents (33%) says the City methods/channels meets their needs.

Q – The City currently offers in-person services at City Hall and at some recreational facilities, as well as online and over the phone. These types of services include: paying your bills; obtaining your license; registering for a program; etc. To what extent do the methods/channels to conduct these types of activities with the City meet your needs, on a scale of 1 to 5, where 1 is does not meet and 5 is exceeds?

## ABOUT FOUR IN FIVE RESIDENTS WHO HAVE BEEN IN CONTACT WITH CITY EMPLOYEES IN THE PAST YEAR REPORT BEING VERY SATISFIED OR SATISFIED WITH THEIR EXPERIENCE

About half of City residents (51%, down from 64% in 2019) say they have been in contact with any City of St. Albert employees in the past 12 months. Of those who have been in contact, a majority report being satisfied (39%) or very satisfied (42%) with their service experience provided by City employees.

Q – In the past 12 months, have you been in contact, with any City of St. Albert employees?

Q – [IF HAS BEEN IN CONTACT IN THE PAST 12 MONTHS] Overall, are you very satisfied, satisfied, neither satisfied nor dissatisfied, dissatisfied or very dissatisfied with your service experience provided by City employees?

# 4

## Communication and public participation

# SATISFACTION WITH CITY COMMUNICATIONS ABOUT MUNICIPAL MATTERS SINCE 2019

Over three in four St. Albert residents report that the City meets (47%) or somewhat meets their expectations (31%). This remains consistent with the 2019 wave (81%; 64% meets my expectations and 17% somewhat meets my expectations). Meanwhile, the proportion of residents who say the City fully meets their expectations (47%) has declined from 64% in 2019. Residents aged 55 and older (52%) are more likely to say the City outright meets their expectations in terms of sharing and providing access to information compared to those aged 18-34 (40%).

Source: Nanos Research, RDD dual frame (land- and cell-lines) hybrid telephone survey and online survey of 443 residents of St. Albert, September 2 to October 6, 2025.

# LOCAL NEWSPAPERS SEEN AS TOP SOURCE FOR CITY INFORMATION

About three in four residents (74%) select local newspapers when prompted to select how they currently get their information about the City of St. Albert. This is followed by social media channels (43%) and City of St. Albert website/website contact form (42%). Residents aged 18-34 are more likely to select social media channels (66%), while residents aged 35-54 and 55 plus are more likely to select local news papers (71% and 87% respectively).

Q – Please tell us how you currently get your information about the City of St. Albert.  
(Select all that apply)

# 5

## Property taxes and financial planning

# PERCEIVED FAIR VALUE FOR TAX DOLLARS AMONG ST. ALBERT HOMEOWNERS

Over one in three homeowners (36%) say they receive fair value for the tax dollars that pay for City services, an increase from 24% in 2019. Moreover, over two in five homeowners say they receive good value (28%), very good value (13%) or excellent value (two percent) for the tax dollars that pay for City services although it has decreased since 2019 (37% good; 23% very good value; six percent excellent value for their tax dollars). Residents who are aged 35 plus are more likely to say they receive good value (30% of those aged 35-54 and 33% of those aged 55 plus), very good value (15% of those aged 35-54 and 16% of those aged 55 plus) compared to younger residents (15% good value; six percent very good value).

Q – [ASK IF OWN A HOME] Property taxes in St. Albert are related to the value of your property. About one quarter of your property tax bill is collected on behalf of the Province to pay for education and schools. This means that about three-quarters of your property tax bill goes to the City to fund services provided to community. Thinking about the amount of your tax bill that pays for City services, would you say you receive ....?

Note: Data labels under two percent have been removed for clarity.

## RESIDENTS ARE TWICE MORE LIKELY TO SAY THEY ARE SATISFIED TO SOME EXTENT THAN NOT WITH CITY BUDGET COMMUNICATION

St. Albert residents are two times more likely to say they are very satisfied (eight percent) or satisfied (39%) with the way the City communicates information about its budget and financial matters than to say they are very dissatisfied (four percent) or dissatisfied (15%). Of note, just over one in four (27%) say they are neither satisfied nor dissatisfied. Residents aged 35 and older are more likely to say they are satisfied (42% for 35-54; 43% for 55 plus) or satisfied compared to younger residents (29%).

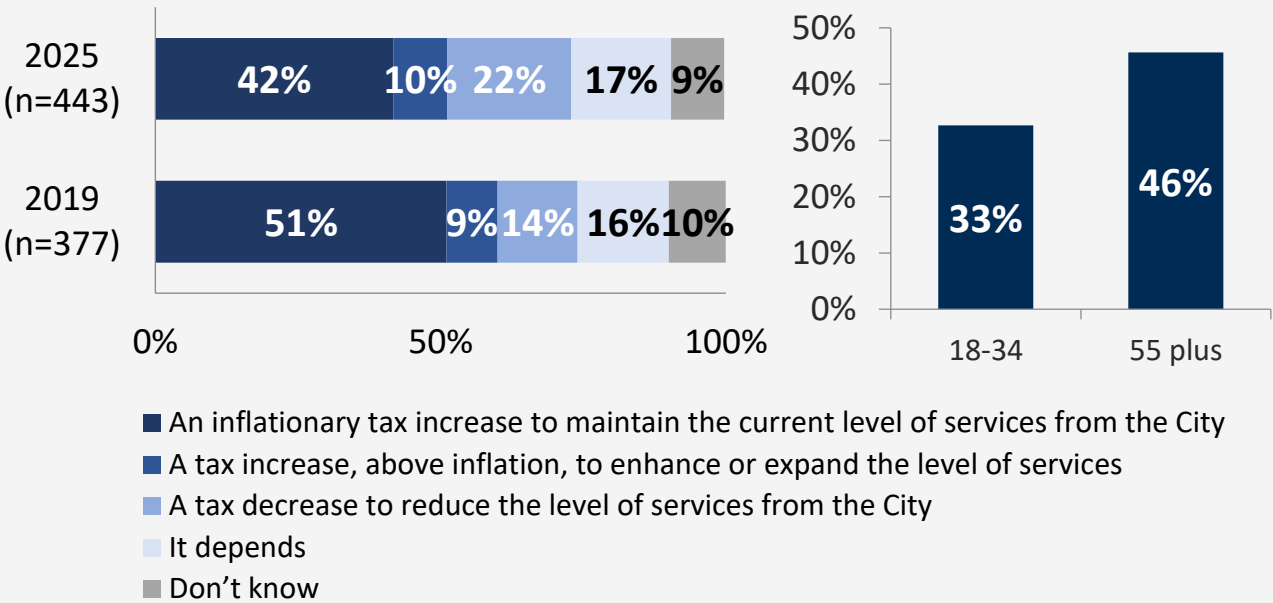

Q – Are you very satisfied, satisfied, neither satisfied nor dissatisfied, dissatisfied or very dissatisfied with the way the City communicates information about its budget and financial matters?

## SUPPORT FOR INFLATIONARY TAX INCREASE DECLINES, BUT REMAINS MOST PREFERRED STRATEGY

Among possible future tax strategies, over two in five residents (42%) would support an inflationary tax increase to maintain the current level of services from the City the most, although it has decreased from 51% in 2019. Meanwhile, just over one in five (22%) would most support a tax decrease to reduce the level of services from the City, up from 14% in 2019. Older residents aged 55 or older (46%) are more likely to support an inflationary tax increase to maintain the current level of services from the City the most compared to those aged 18-34 (33%).

Q – Of the following tax strategies, which one would you support the most for the City over the next 5 years?

Note: In the 2025 wave, respondents were able to elaborate on the “It depends” category. For the full list of responses, please refer to the data tables.

# 6

## Municipal leadership

# MANAGING CITY GROWTH CITED AS MOST IMPORTANT ISSUE FACING CITY COUNCIL

When asked about the most important issue facing St. Albert City Council today, ‘Managing City growth/sprawl/expansion/maintaining services with growth’ is mostly mentioned (20%) which has increased from six percent in 2019. This is followed by ‘Misallocation of budget/how tax dollars are spent/overspending/fiscal responsibility’ (14%) which is consistent with the 2019 wave.

Q – What would you say is the most important issue facing St. Albert City Council today? [OPEN]

# FINANCIAL SUSTAINABILTY RATED AS MOST IMPORTANT STRATEGIC GOAL FOR THE CITY OF ST. ALBERT

Among the strategic priorities for the City of St. Albert, residents (71%) are more likely to rate financial sustainability (score of 7-10 out of 10) as important, followed by adapting to a changing natural environment (60%) and vibrant downtown (59%). Women (mean of 6.6 out of 10) are more likely than men (mean of 5.0 out of 10) to rate community well-being as important.

Q – On a scale from 0 to 10, where 0 is not at all important and 10 is extremely important, how important are the following strategic priorities for the City of St. Albert? [RANDOMIZE]

Source: Nanos Research, RDD dual frame (land- and cell-lines) hybrid telephone survey and online survey of 443 residents of St. Albert, September 2 to October 6, 2025.

# Quality of life

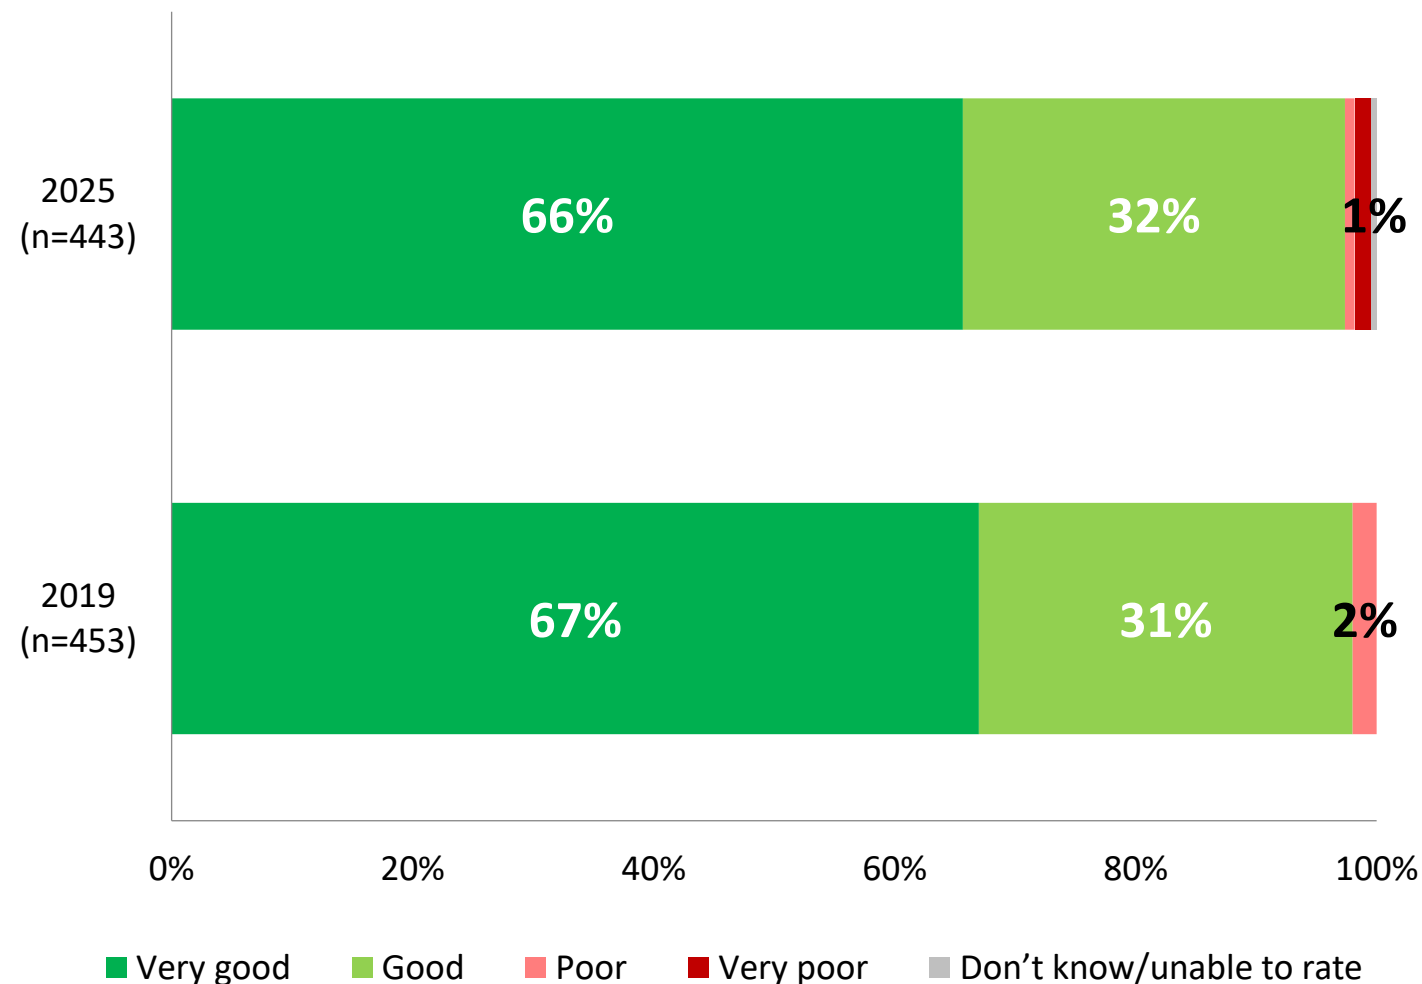

This section presents residents' ratings of the overall quality of life in St. Albert, their perceptions of personal safety within their community and identifies key factors that contribute or reduce it.

## Perceived quality of life in St. Albert

Majority of St. Albert residents rate the overall quality of life in the City as very good (66%) or good (32%) which is consistent with the 2019 wave. Residents aged 35-54 are more likely to rate it as very good (73%) compared to younger residents aged 18-34 (52%).

A photograph of three young people sitting outdoors, possibly on a rooftop or patio. In the foreground, a young man with glasses and a red headband is smiling at the camera. Behind him, a young woman with blonde hair and sunglasses is also smiling. To her left, another young person wearing a green baseball cap and glasses is looking down. They are all holding clear glass bottles, likely containing beer. The background shows some architectural elements and greenery, suggesting an outdoor setting. The image has a semi-transparent dark overlay.

## Overall satisfaction with City services, facilities and programs

This section presents residents' overall satisfaction with City services, facilities and programs.

# Level of satisfaction with the City's services – Tracking

Three in four St. Albert residents say they are very satisfied (23%) or satisfied (52%) with the programs and services provided by the City to residents. Meanwhile, less than one in ten are very dissatisfied (two percent) or dissatisfied (five percent) and 16% are neither satisfied nor dissatisfied.

[2019] – Q - Taking into consideration all City of St. Albert services, facilities and programs, overall, how satisfied are you with the programs and services provided by the City of St. Albert to residents? Would you say you are...?

Q – Taking into consideration all city services, facilities and programs, overall, are you very satisfied, satisfied, neither satisfied nor dissatisfied, dissatisfied or very dissatisfied with the programs and services provided by the City to residents?

\*Weighted to the true population proportion.

# Level of satisfaction with City's methods

Q – The City currently offers in-person services at City Hall and at some recreational facilities, as well as online and over the phone. These types of services include: paying your bills; obtaining your license; registering for a program; etc. To what extent do the methods/channels to conduct these types of activities with the City meet your needs, on a scale of 1 to 5, where 1 is does not meet and 5 is exceeds?

\*Weighted to the true population proportion.

\*Charts may not add up to 100 due to rounding.

Over **2 in 5** St. Albert residents

say the City's methods/channels for conducting services fully meet (32%) or exceed their needs (13%) while just one in ten say they somewhat do not meet (eight percent) or do not meet their needs (three percent). Additionally, one in three residents say the City's methods/channels meet their needs (33%) and about one in ten say they have not used the services in the last 24 months (11%).

Source: Nanos Research, RDD dual frame (land- and cell-lines) hybrid telephone survey and online survey of 442 residents of St. Albert, September 2 to October 6, 2025.

A photograph of four people sitting in a row, each holding a large circular emoji cutout in front of their face. From left to right, the emojis are: a yellow face with a wide-open mouth (surprise), a green face with 'X' eyes and a wavy line (dizziness), an orange face with a frown and angry eyebrows (anger), and a yellow face with a frown and slanted eyes (frustration). The background is a plain, light-colored wall.

# Level of importance of strategic priorities for the City

Mean

Among the strategic priorities for the City of St. Albert, about seven in ten (71%) residents say financial sustainability is important (score of 7-10 out of 10), followed by adapting to a changing natural environment (60%) and vibrant downtown (59%).

Financial sustainability by pursuing diverse revenue sources, investing in long-term revenue-generating infrastructure, and implementing efficiencies from the Operational and Fiscal Review and the Internal Audit Committee

Adapting to a changing natural environment by reducing ecological footprint, protecting natural areas, and strengthening infrastructure and social systems for long-term resilience

Vibrant downtown by promoting community events that celebrate heritage, arts, and culture, and supporting local businesses

Economic prosperity by developing the Lakeview Business District, and fostering a supportive environment for development

Community well-being by addressing changing demographics, promoting inclusivity, and advancing diverse housing options, including attainable and transitional housing

■ Important (7-10)

■ Average (4-6)

■ Not important (0-3)

■ Unsure

\*Weighted to the true population proportion.

\*Charts may not add up to 100 due to rounding.

Element	Description	Element	Description
Research sponsor	City of St. Albert	Weighting of Data	The results were weighted by age and gender using the latest Census information (2021) to ensure a distribution across all regions of St. Albert. See tables for full weighting disclosure.
Population and Final Sample Size	443 Randomly selected individuals.	Screening	Screening ensured potential respondents did not work in the market research industry, in the advertising industry, in the media or a political party prior to administering the survey to ensure the integrity of the data.
Source of Sample	ASDE	Excluded Demographics	Individuals younger than 18 years old; individuals without land or cell lines, and individuals without internet access could not participate.
Type of Sample	Non-probability	Stratification	By age and gender using the latest Census information (2021) to be representative of St. Albert.
Margin of Error	For comparison purposes, a probability sample of 443 respondents would have a margin of error of $\pm 4.7$ percentage points, 19 times out of 20.	Estimated Response Rate	Telephone: six percent, consistent with industry norms. Online: Not applicable
Mode of Survey	RDD dual frame (land- and cell-lines) hybrid telephone survey and online survey of residents recruited through social media.	Question Order	Question order in the preceding report reflects the order in which they appeared in the original questionnaire.
Sampling Method Base	The sample included both land- and cell-lines RDD (Random Digit Dialed) across St-Albert. The online survey sample was recruited through social media.	Question Content	All questions asked are contained in the report.
Demographics (Captured)	St. Albert residents; Men and Women; 18 years and older. Six-digit postal code was used to validate geography.	Question Wording	The questions in the preceding report are written exactly as they were asked to individuals.
Fieldwork/Validation	Live CATI interviews with live supervision to validate work and online survey.	Research/Data Collection Supplier	Nanos Research
Number of Calls	Maximum of five call backs to those recruited.	Contact	Contact Nanos Research for more information or with any concerns or questions. <a href="http://www.nanos.co">http://www.nanos.co</a> Telephone:(613) 234-4666 ext. 237 Email: <a href="mailto:info@nanosresearch.com">info@nanosresearch.com</a> .
Time of Calls	Individuals recruited were called between 12-5:30 pm and 6:30-9:30pm local time for the respondent.		
Field Dates	September 2 to October 6, 2025.		
Language of Survey	The survey was conducted in English.		
Standards	Nanos Research is a member of the Canadian Research Insights Council (CRIC) and confirms that this research fully complies with all CRIC Standards including the CRIC Public Opinion Research Standards and Disclosure Requirements. <a href="https://canadianresearchinsightscouncil.ca/standards/">https://canadianresearchinsightscouncil.ca/standards/</a>
